

THE KANSAS HERALD,

FRIDAY, NOVEMBER 10, 1854.

We are authorized to announce JAMES N. BURNES, Esq., as a Democratic candidate for Delegate to Congress, for the Territory of Kansas.

We are authorized to announce J. B. CHAPMAN, as a candidate for delegate in Congress from Kansas Territory.

Maj. WRIGHTMAN has been tried on a charge of murder for killing F. X. AUBRY in Santa Fe and acquitted, the jury believing it a case of self-defense.

NEBRASKA.—Maj. Cummings, secretary of Nebraska, and acting Governor, is proceeding to organize the Territory and has ordered the census to be taken, and an election of Delegate to Congress. The Legislature will be convened this winter at Omaha City, which has been designated as the temporary seat of Government.

The Herald of Freedom is the title of a paper purporting to be published at Wakarusa, Kansas Ter. but printed in New York, and endorsed by Eli Thayer, which is enough to condemn it with every right minded man. It is to be the organ of the abolition emigrating aid society and as a matter of course devoted to making Kansas a free State. The paper bears a falsehood upon its face, in dating its publication at Wakarusa. We are sorry it has appropriated a portion of the name of our paper to its abolition incendiaryism. The Kansas Herald, is printed and published at Leavenworth and has no affinities with the Herald of Freedom, printed in New York, and dated in Kansas Ter.

LEAVENWORTH MESSENGER.—The title of a paper proposed to be published in this place by Mess. Clark & Few. They say they will "cheerfully forego their former predilections for party," as old line national whigs of the Clay and Webster school and support the administration of President Pierce, in such policy as shall conduce to the general good." They take the slavery side of the question and say in their Prospectus which will be found in another column, "while we have no affinities with the free soiler, and heartily detest the abolitionist, still hope to conduct the controversy in the spirit of kindness and liberality."

We wish the gentlemanly proprietors a good time of it, but apprehend they will have a hard road to travel in supporting the democratic administration in many of its leading measures and at the same time running with the whigs.

HISTORY OF ALL NATIONS.—A large and valuable work by Goodrich, is now in press, and will be ready for delivery about the first of January next. It is well worth the subscription price six dollars. We would not be without it for double that sum. The agent will be here in a few weeks. We would advise every person to get it. It will be invaluable as a work of reference to the history of all nations.

ST. LOUIS ADVERTISEMENTS.—Our readers are referred to the advertisement of A. H. Shultz who keeps a large stock of Paper, Books, Blank books, Stationery, &c., and sells at the lowest prices.

W. A. NELSON, wholesale Commission Merchant and agent for Manufacturers of Paper, will attend to all orders in his line with punctuality and promptness.

B. RINEHART & Co., under the Virginia Hotel, keeps constantly on hand, all kinds of the very best quality, of imported cigars, of all brands.

Sloss and Jones, attorneys at law, are prompt business men, and can be relied on.

See law card of H. J. Wolf, Weston, Mo.

We would call the especial attention of our readers to the advertisements of Dr. Easterly. His medicines are spoken of in the highest terms and they are doubtless worthy of public attention. We have been and are now using his Iodine and Sarsaparilla, prescribed by a regular physician, and we have no hesitation in pronouncing it one of the best blood purifiers known to the medical faculty. Many of the best physicians in this section of the country are using this medicine in their practice. This is a strong evidence of its good medical properties. See Dr. Easterly's advertisements in our advertising columns, and read them.

Books! Books!!—We would again call the especial attention of our readers to the advertisements of D. Burgess & Co., New York, Publishers of the following standard school books, viz: Mayhew's Practical Book-keeping by double and single entry; Smith's Primary Geography, and Smith's Illustrated Astronomy. These books are highly recommended and it would be well to have them introduced into our schools in their very commencement.

The attention of our readers is called to the law card of Mr. MACAULAY. He has located permanently at Leavenworth, and will devote his attention to the practice of law, the selection, purchase and sale of property of all kinds. We cheerfully recommend him as a gentleman every way "worthy and well qualified" in his profession.

GEORGE D. STEVENSON, is in the Commission business, and will promptly attend to the Forwarding, Storage and Commission business. He is always on hand, every ready, and attentive to business. See advertisement.

THE MORMON, is the title of a paper, the Prospectus of which is now before us, to be published weekly in New York City, by John Taylor, one of the twelve apostles of the Mormon church. The paper will be devoted to the interest of the church.

The editor says there will be a Mormon emigration next spring, destined for Salt Lake, of near fifty thousand. They will have several starting points on the Missouri river, Leavenworth will probably be one. They do this in order to prevent crowding too many together at one point.

Council City—Great Humbug.

We have seen a printed circular, headed "American Settlement Company—The great Kansas enterprise, composed of the bone and sinew of the new England, Northern, Middle and Western States." Great enquiries have been made by emigrants and others as to where this Council City is located, and no one can tell. Hundreds have come to the Territory in search of that city, the dupes of a few speculators in the east. We subjoin a few paragraphs copied from the printed circular, as a specimen of the latest humbug, gotten up on a small scale.

Resolved, that we, the undersigned do hereby form ourselves into a Society, to be known as the "American Settlement Company," for the purpose of settling a County in aid of making a Free State, by locating a large Tract of Land, in the Territory of Kansas and founding thereon a City, with a Municipal Government, which shall have the literary, social and civil privileges of the old States, viz:—Free Schools, Free Library, Lyceums, Reading-Room, Printing Press, Churches, &c., &c.

The general plan of the Company is to secure 20 miles square of ground, and to form upon it a County Settlement, comprising about 1500 Farms of 160 acres; and in their midst to lay out an elegant and spacious City of three miles square, divided into plots varying in size from Two to Eight ordinary City Lots. Said City to have in its centre a Park, containing eighty acres, also other Promenades and enclosures for ornament and pleasure.

The Stock of the Company has been divided into shares of \$5. Each share represents a membership and one City Lot. Each settler is entitled to one or more city shares, according to the amount of his subscription. In order to avoid speculation and to enrich settlers, the number of shares have been limited, and no person will be allowed to subscribe for more than six; thus keeping the immense and incalculable rise in the property, which must accrue, within the hands and to the benefit of the original pioneers.

It is among the first objects of this Company, after surveying, leveling and grading the City, to supply it with a Church, School, Grist-Mill, Saw-Mill, Public House and Dwellings, for the convenience of Settlers, when they arrive, and for the speedy accomplishment of this great object, viz:—The establishment of a model city!

In all of these buildings and improvements, every settler and holder of a share, is interested and will receive his portion of the profits on each share held by him.

The locating Committee have already gone upon the ground, which however had been previously marked, as a great site, by Mr. George Walter and Mr. Max Greene, who are personally acquainted with the country. It is situated in the most luxuriant part of the whole Territory, and for other valuable reasons, is a choice spot.

Here is a grand scheme for speculating in town and county lots laid off on a grand humbugging scale. It looks magnificent on paper, and is depicted in glowing colors. Just think of it, a city three miles square, and shares sold at the enormous sum of five dollars each, and limited to six!

The climate of Kansas is described in this same Circular, as being exceedingly mild, and the winters only lasting about two months; that cattle can subsist on the prairies through the winter requiring no shelter and but little stock corn or hay, that it is no uncommon thing to plough the prairies, in January. They had just as well have said cattle can subsist the year round without any thing to eat; and that the climate was a perennial spring of one continued sun shine; that the wide spread prairies were covered with green unfading pastures, and that the land required no ploughing; that every thing grew spontaneously in abundance, and that men could live without work. Then there projectors of this three mile city, existing only on paper and in imagination, would have completed the picture of this grand humbug.

CONVENTION.—A convention has been called by somebody, we don't know who, to be held at this place on Wednesday next, to nominate a candidate for Delegate to Congress. We would like to see a concentration made upon some good and reliable man; but this call comes in a very suspicious way, and we apprehend, it will be "Love's labor lost."

MINNESOTIANS.—Several families from Minnesota have located here, and are building, several others have just come in—numbering in all ten or fifteen. They are an energetic industrious go ahead people, just the very persons, to assist in building up a city.

Mr. A. Pegram of New York writes us, that he intends moving to Kansas Ter. next spring, and will bring with him a large number of the finest and best horses and brood mares, and will devote his attention to the raising of fine horses, with a view to the improvement of the stock in this country. Kansas is the finest stock raising country in the world, and will pay the stock raiser good profits. We are glad to hear that good stock is soon to be brought into the country.

Acorns have been sold in Romney, Va., this fall at 25 cents per bushel. They are used to feed hogs.

Miss Harriet Pomery, the great bloomer or advocate has got a new suit. She has adopted the old fashion "bran dour flap," to her breeches. What a fall!

Special Correspondence of the Kansas Herald. Arrived of Gov. Reeder.—passage of the Missouri—scenery and character of the country—the Governor's party—slavery question—conciliatory spirit—character of Gov. Reeder.

KANSAS, Oct. 9, 1854.

No event in the history of Kansas, since its organization and the appointment of its officers, has been respected with as much interest as the arrival of the Governor. Upon the wisdom of his election, much of the immediate prosperity of the Territory depends. Clothed necessarily with important, and having at his disposal, practically, a large amount of patronage and money, it is inevitable that he must exercise a determining influence on the character of the future state. This seems to be fully realized by her citizens, present and prospective; and yet they have scarcely concealed an impatience at what some have deemed an unnecessary delay. But others, in this delay, have seen an omen of encouragement; for it augurs that the appointment was unexpected to its recipient, who, in accepting the trust, has been forced to employ a somewhat lengthened interval in the disposition of his private affairs, and the preparations for his public duties.

All, however, were prepared to hail his advent; and a large number of the passengers on board the steamer "Polar Star," when she left St. Louis on the afternoon of the 3d inst., were drawn thither by his presence. Many who were visiting Kansas like him, for the first time, felt a desire to become acquainted with his person and character, before dispersing to their several locations: while others already citizens, were probably willing, not only to gain some knowledge of his views and feelings, but to give him the benefit of their own in return.

To describe the scenery of the Missouri river, would be to picture a continuous succession of bars. Sandy shores, bordering a very crooked and muddy though broad, and at times rapid, stream; relieved occasionally by rocky bluffs on one side, and covered with a meager growth of timber. This great river, in fact, with its innumerable sand-bars and snags, is one of the least inviting thoroughfares in the Union, as well as one of the most difficult of navigation.

Of the company, it is hard to speak in general terms, further than to say that it comprised more than usual intelligence, and was pervaded by a spirit of thorough satisfaction and good humor. Among the party of Gov. REEDER, where his private Secretary Mr. Williams, Mr. Isaacs, Attorney General of the Territory, Mr. Osborne, of the "Kansas Herald," Dr. Scott of Virginia, Dr. Canfield, of New Jersey and Col. Fleniken, late Charge d'Affaires at Copenhagen. Besides there were some prominent members of the eastern emigration companies, on a tour of exploration, and Col. Mitchell of St. Joseph; the Col. I believe, claims to be a downright cosmopolite. The probable character of the new territory was discussed with a great deal of freedom and opinions frankly and courteously exchanged, including views on the tender question of slavery; but it was observable that every man seemed desirous of conciliation.

Of Gov. REEDER, all speak in the most gratifying terms. He is evidently a gentleman of more than ordinary culture, and of very efficient and practical talent. He has experience, energy and popular manners; and I shall be greatly disappointed if he does not administer his government with conscientious firmness and a scrupulous regard of the rights of the governed and the interests of the Territory. I am persuaded that his is not the feeling of a man exiled to a region with whose interests he has no further connection than may subsist between his pocket and the emoluments of his office; but believe that he has come to Kansas feeling a sympathy with its present condition and a confidence in its future, and with a determination so to fulfil the important trusts committed to his charge, that a prosperous and powerful State shall yet point to her character and institutions as proud monuments, enduring to the time, as they were the creation, of her first Governor.

Prospectus OF THE LEAVENWORTH MESSENGER.

The undersigned will issue, on or about the 1st of December, 1854, at LEAVENWORTH, K. T. THE LEAVENWORTH MESSENGER, a weekly Journal, devoted to a liberal public view of Agriculture, Manufactures, Mechanics, Arts, Commerce, Education, and the Pro-slavery interest in Kansas Territory.

In the commencement of our undertaking as public Journalists, we are not unmindful of the many responsibilities we are assuming, and every exertion will be made on our part to acquit ourselves to the satisfaction of our patrons, and to make our Paper one of the leading Journals of the South-west.

In us, the Farmer and Mechanic will find ardent supporters of their best interests, and the working-man of every avocation and pursuit, may rely on our willing and cheerful advocacy and aid; the Pioneer and Squatter upon uncultivated Public Lands, may look to us as to long-tried friends for advice and aid, and shall watch with a jealous eye over all their dearly bought rights and hard earned privileges.

With Politics we do not expect to meddle; but the public have a right to know of our antecedents, as well as to learn our present position. We have been old-line National Whigs of the Clay and Webster school, and we have yet to learn that these great Oracles of the Whig party were mistaken in their policy; or advocated any but wise and liberal principles; but as questions are now upon us, touching the great issue of Slavery, we shall yield to the country, and adhere to the abstract Whig or Democratic doctrines, we cheerfully forego our former predilections for party, and define our position as follows:

The present Administration has won upon our confidence, for its leading measures, and we shall yield to its cheerful and humble support, in such a policy as shall conduce to the general good. We fully endorse and will vindicate the principle of the Nebraska-Kansas Bill; the full and equal abrogation of the Missouri Compromise, and the wise provisions of the Fugitive Slave Law. Upon the all-absorbing question of Slavery, we may state without reserve, that we believe that the true interest of our Territory will be subserved by incorporating it with our Institutions, we do not concur in the most mad, and thoroughly discuss the subject and while we have no affinities with the Free-soiler, and heartily detest the Abolitionist, we still hope to conduct the controversy in the spirit of kindness and liberality. We thus end our column at the most head, and we shall do so on issues which may be pertinent to the main question. We are of those who cannot be lulled into a false security by the "masterly inactivity" and fair representations of our worthy opponents. We are confident that the country is to be sprung upon us by our Free-soiler friends, whenever the neutral flag can be dispensed with, and we are ready for the issue. As National men, we shall labor for the good of the whole country, for the Union, and the Union in its integrity, we are free to admit, that upon this question, our sympathies and convictions are with the South and West, and that while we are engaged in the advancement of their interests, we are engaged in "a labor of love." We expect to make our Paper a medium of much value to a special class of the public. We have an established Correspondence in Oregon, California, Utah and New Mexico, and will give the earliest reliable news from all intermediate points. We will also have regular Correspondents in all the principal Cities of the United States, and a special Correspondent at the seat of the General Government. With this abstract of our principles and purposes, we submit our undertaking to the patronage of a generous public, trusting that we may merit their liberal support.

TERMS.—Two Dollars per annum in advance. Communications should be addressed to the Editors and proprietors, Leavenworth, Kansas Territory, postpaid. JEREMIAH CLARK. SAMUEL F. FEW. Nov. 10, 1854. n9

Dr. Easterly's Iodine and Sarsaparilla.—This preparation combines the Iodine (or Hydrate of Potassium), the fluid extract of Sarsaparilla (the Honduras Root) and the Yellow Dock together with other efficacious Extracts which render it the most potent remedy known to man for the cure of all diseases arising from an impure state of the blood, viz: Scrofula or King's Evil, obstinate cutaneous eruptions, pimples on the face, blotches, hives, chronic sore eyes, ring worm or tetter, scald head, salt-rheum, pains in the bones and joints, old sores and ulcers, rheumatism, swelling of the glands, syphilis or venereal diseases, erysipelas, tuberculous consumption, lumbago, diseases of the kidneys, dropsy, dyspepsia, liver complaint, nervous affections, general debility, neuralgia or the double-nerve, cancers, goitre, white swellings, diseases arising from an impure use of mercury, exposure or imprudence in life, female irregularities, also chronic constitutional diseases. The ingredients employed in this preparation are known to the medical faculty and to almost every individual to be highly efficacious in the removal of diseases, producing action upon the blood, glands, lungs, liver kidneys, digestive and urinary organs, enabling them to throw off diseases and to perform the functions that nature designed. Dr. Easterly's Iodine and Sarsaparilla searches out the very roots of the disease, destroys the germ by purifying the blood, changing morbid secretion, and by driving out all impure and diseased fluids of the body, and by thus removing the cause, the cure is rendered certain and permanent. It is the best remedy ever invented for the cure of mercurial and syphilitic or venereal diseases. It has cured thousands upon thousands after all other remedies had failed. It has cured, and will cure, the most desperate cases.

Ask for Dr. Easterly's Iodine and Sarsaparilla, and take nothing else. For sale by the Druggists in Weston, Mo., and also by the principal Druggists and dealers in medicine throughout the Western States.

Dr. Easterly's Diarrhoea Syrup. This is a pleasant, safe, and effectual remedy for Dysentery, Diarrhoea, Cholera, Cholera Morbus, Summer Complaint, Colic, Griping Pains, Wind in the Stomach and Bowels, Cramps, Fretting and Crying of infants, and for all irregularities of the Bowels.

It is one of the most efficient, pleasant and safe preparations, ever offered to the public for the removal of the various derangements of the Stomach and Bowels, and the only article worthy of the least consequence for curing Cholera Infantum or Summer Complaint, and all derangements of the bowels from teething.

Dr. Easterly's Diarrhoea Syrup is without exception one of the most valuable Family Medicines ever discovered. Hundreds of families of the first respectability in St. Louis have used it and bear the strongest testimony in its favor.

Price 25 cents per bottle. For sale by the Druggists in Weston, Mo., and also by the principal Druggists and dealers in medicine throughout the Western States.

DR. CARTER'S COUGH BALSAM.—Is a prompt and effectual remedy for coughs, colds, asthma, consumption, bronchitis, pain in the side and breast, and all diseases of the lungs. At this season the sudden changes of the climate, and the cold bleak winds of the north, produce coughs and colds—dangerous colds, which demand of the wise and the prudent, the earliest attention. Reader, have you a cough or cold? Do not neglect it. Thousands of the old and the young, the fashionable and the gay, are annually consigned to a premature grave by neglecting to attend to a common cold. Coughs and colds lead to consumption, and if not removed by a proper remedy, to an early death. Be advised in time. Procure at once that celebrated remedy, Dr. Carter's Cough Balsam, which has cured thousands upon thousands after all other means had failed, and which seldom fails to cure the most appalling stages of consumption. Price 25 cents per bottle; large bottles \$1, or six bottles for \$5.

For sale by the Druggists in Weston, Mo., and also by the principal Druggists and dealers in Medicines throughout the Western States.

Dr. Easterly's Fever and Ague Killer.

Is warranted to cure all cases of Ague and Fever, Chills and Fever, Dumb Ague, intermittent and Remittent Fevers, and every form of Fever incident to the West. If there suffers in Weston, we say try it, and if it fails to cure, the money shall be refunded to the purchaser. More than

Twenty-Five Thousand Bottles, have been sold, and in no instance has it failed to effect a permanent cure as far as heard from. Price, \$1 per bottle, or six bottles for \$5.

For sale by the Druggists in Weston, Mo., and also by the principal Druggists and dealers in Medicines throughout the western states.

LAW NOTICE, AND LAND AGENCY.

Messrs. EASTIN & ADAMS: Permit me through your Journal to announce to the public, that I have opened a Law Office in Leavenworth City, one door west of the Leavenworth House, where I shall attend to the various matters pertaining to the Legal Profession. Desirous to locate in a milder climate than that of northern Pennsylvania, where I have enjoyed for several years a successful practice at one of the best bars in the State, I have selected this place for a permanent residence, and hereby connection with the public will prove pleasant and satisfactory. In connection with the practice of law, (as will be seen by an appended card,) I have associated, in the business of LAND-MONROE with S. D. PIERCE; whose position, and residence in the Territory for several years, renders him worthy of confidence and eminently qualified for the undertaking. I have the honor to direct for references; to His Excellency Gov. Wm. Bigler; Hon. G. W. Woodward, (Judge of the Supreme Court,) and Hon. H. B. Wright of Pennsylvania; and Col. J. W. Forney at Washington. J. MARION ALEXANDER. Oct. 27, 1854.

The undersigned have established the LAW OFFICE, and have commenced business, in Leavenworth City, at the Law Office of J. M. Alexander, where they are prepared to give strangers information concerning lands in Kansas Territory, and to assist in the purchase and sale of Claims. Also, having the agency of a large number of Lots in this City, they will take pleasure in waiting on those who wish to examine and purchase city property.

Gentlemen who wish to employ our Agency through which to effect investments, may be accommodated with unexceptionable References and Security. S. D. PITCHER. J. M. ALEXANDER. Oct. 27, 1854.

MAYHEW'S Practical Book-keeping, by single and double entry, with a set of account books, to be used by the learner in writing up the examples.

This work has been recommended by the Superintendent of Common Schools for the City and County of New York; by the Principal of the New York Free Academy; by the Principals of the Public Schools generally, and of all the Ward Schools in the City and County of New York; by the Principals of all the best schools of the cities of Brooklyn and Williamsburgh, and by the teachers generally of other schools, both public and private, to whose knowledge it has been brought.

Such unanimity and strength of testimony, including the Principals of all the public schools of these three cities, is unprecedented, and still this work has been received with equal favor wherever it has become known, having been introduced into the schools of a large number of cities and towns in every part of the United States, within the brief space of three months from its publication, including several female colleges in a large number of States, the high schools of a large number of cities, and an almost incredible number of academies and common schools scattered throughout the country. It will be observed, also, that teachers who have tested this work in the school-room, bear the strongest and most cordial testimony in its favor.

Price for both Book-keeping and Account Books, 75 cents sent by mail, postage paid. DANIEL BURGESS & Co., Publishers, no-3m 60 John street, New York.

HAVE YOU SEEN THE NEW EDITION of Smith's primary geography, which is printed from electrotype plates, and on the best paper? This is the best book for primary schools now published. We would advise all who are about making a change in their schools to get this book and examine it. Price, 42 cents, sent by mail, postage paid. DANIEL BURGESS & Co., oct 20, 1854. 3m Publishers, New York.

SMITH'S ILLUSTRATED ASTRONOMY. A new edition of this work has just been published, containing new diagrams of the eclipses, meteors, etc., which are beautifully printed. This is the most complete work on astronomy now published. It has been the object of the author to present all the distinguishing principles in physical astronomy in as few words as possible, by way of diagrams and maps, as shall make the subject easily understood. This book is got up in the best style, and contains 32 illustrations, which are very interesting. Teachers say that this is the best book on astronomy for schools now published. The price is only \$1, sent by mail, postage paid, to any part of the country. Address DANIEL BURGESS & Co., no-3m 60 John street, New York.
